Career Focus

I am a Computer Science student with a passion for cybersecurity.

Education

Bachelor of Science: Computer Science, 2017

Clemson University – Clemson, South Carolina

Skills

- I am proficient in Kali Linux
- I have experience using tools such as Splunk, StealthWatch, SecurityCenter, Bro IDS, Nmap, Nikto, and Metasploit.
- I have a working knowledge of HTML, SQL, PHP, and Javascript that enables me to investigate web applications for vulnerabilities.
- I have experience programming in C, C++, Java, and Python.

Work Experience

Cybersecurity Analyst (Feb 2016 – Present)

Clemson Cybersecurity Operation Center

- Monitored network traffic using Bro, StealthWatch, and Splunk.
- Scanned servers for vulnerabilities using SecurityCenter, Nikto, and Nmap.
- Created scripts to automate tasks such as banning brute force attackers.
- Exploited vulnerabilities using Metasploit and sqlmap.
- Practiced social engineering.
- Used hashcat to decrypt password hashes.
